

TANZANIA**with Amboseli, Kenya****8 days**

Created on: 2 Jan, 2025

Day 1 Arrive in Nairobi

Today we arrive in Nairobi, the capital of Kenya.

Part of Maasai land when the British arrived, this modern capital grew with the development of the railway. Derived from a Maasai word meaning "Cold Water," Nairobi is a pleasant mix of colonial British with modern and traditional African influences.

Overnight in Nairobi.

Included Meal(s): Dinner, if required.

Day 2 Nairobi - Amboseli National Park

Today we travel south from Nairobi to the Amboseli National Park (+/- 4 hours, depending on lodge location and animals spotted en route).

Just across the border from Tanzania, this park is situated on the African plain at the foot of snow-capped Mount Kilimanjaro, the continent's tallest mountain at 5894 m (19,300 feet). Here the cone-shaped mountain seems to hover majestically over the shimmering African plains.

The Amboseli National Park is also famous for its large herds of elephants. Here they cover themselves in red dust, giving them an even more imposing appearance. On this afternoon's game drive we hope to view animals grazing on the open plain with Mt Kilimanjaro providing the classic backdrop (weather-permitting).

Overnight in the Amboseli National Park.

Included Meal(s): Breakfast, Lunch and Dinner

Day 3 Amboseli, Kenya - Lake Manyara National Park, Tanzania

This morning we cross the border into Tanzania at Namanga and travel to Lake Manyara National Park via the town of Arusha, the starting point for the northern safari routes of Tanzania. Today's journey is +/- 5 hours, depending on animals spotted, views of Kilimanjaro, and the border crossing.

Manyara is the smallest of the northern parks in Tanzania (330 sq km, of which two thirds is the actual lake) hosting a wide variety of vegetation, ranging from savannah to ground water forest to riparian habitats. The park is host to thousands of pelicans, ibis and flamingo that can be heard from afar. Other common visitors to this beautiful lake are hippos and the majestic African fish eagle, which can be seen swooping down from its perch to snatch a fish from the still waters of the lake.

After lunch at our lodge we will have an afternoon game drive in the park, located at the base of the Great Rift Valley escarpment and comprising of forest, woodland, grasslands, and swamps. Wildlife interest at Lake Manyara is not confined to bird life only; animals such as buffalo, elephant, giraffe, impala, hippo and a great variety of smaller animals also inhabit the park.

Overnight at Lake Manyara.

Included Meal(s): Breakfast, Lunch and Dinner

Day 4 Lake Manyara - Serengeti National Park

This morning we enter the Ngorongoro Conservation Area, a beautiful rolling landscape with periodic views over the Ngorongoro Crater.

sales@adventures-abroad.com

Before descending onto the Serengeti Plain, we'll stop at a viewpoint overlooking the crater.

The name "Serengeti" derives from a Maasai word meaning "Land-without-end." This is a land of superlatives, both in the vast landscape that surrounds you and the incredible biodiversity it supports. It is here that you have a chance to witness one of the most compelling natural dramas on earth -- the annual migration, a sight unparalleled anywhere in the natural world. Our afternoon game drive provides an excellent introduction to this fantastic landscape and the biodiversity it supports. Today's journey is roughly 5 hours, depending on animals and lodge placement.

Overnight in the Serengeti National Park.

Included Meal(s): Breakfast, Lunch and Dinner

Day 5 Serengeti National Park

Today we have a full day of game viewing on the Serengeti. We will visit the "kopjes," a series of low, incongruous hills dotting the open landscape that often provide a vantage point for hungry predators contemplating the endless stream of hooved animals parading past them. Depending on the season and the timing of the rains, up to 1.5 million wildebeest and a half a million zebra embark on a single-minded and perilous quest for water and grazing land. Following this spectacle, of course, are the meat-eating opportunists, hoping to capitalize on the physical toll this journey exacts on the desperate grazers. Even outside of "migration" time, large herds are still seen as they bear their young and feed, gaining strength for their annual return to the park's northern reaches. Resident species that do not migrate make for rewarding animal viewing in any season.

It may be possible to take an optional hot-air balloon safari over the plains at daybreak; today is the best day to participate in this activity -- details will be sent upon booking.

Overnight in the Serengeti National Park.

Included Meal(s): Breakfast, Lunch and Dinner

Day 6 Serengeti - Olduvai Gorge - Ngorongoro Conservation Area

Travelling back to Ngorongoro today we make a stop at Olduvai Gorge, site of the Leakey excavations in the 1960s and 70s that established this region as the prehistoric habitat of some of the earliest species of hominids with some finds dating back 1.8 million years. Experts in the life sciences have argued that the Olduvai contribution to the story of human origins remains unsurpassed by any other prehistoric site in the world. A small museum on site outlines the unique geological and human history of the area.

Called the 'eighth wonder of the world' and stretching across some 8300 sq km, the Ngorongoro Conservation Area boasts a blend of landscapes, wildlife, people and archaeology that is unsurpassed in Africa. The volcanoes, grasslands, waterfalls and mountain forests are home to an abundance of animals and to the Maasai. Ngorongoro Crater is one of the world's greatest natural spectacles and its magical setting and abundant wildlife never fail to enthral visitors. Depending on road conditions, gorge stop, animal sightings, and lodge placement, this journey can be 5-6 hours.

Overnight in the vicinity of Ngorongoro Conservation Area.

Included Meal(s): Breakfast, Lunch and Dinner

Day 7 Ngorongoro Conservation Area

Today we enjoy a half-day tour in the Ngorongoro Conservation Area.* After an early breakfast we descend into the crater far below for a game drive in this incredible setting, a UNESCO World Heritage Site. We explore the Ngorongoro Crater, 20 km (13 miles) wide and 700 m (2,300 feet) high where we may see the "Big Five" as well as many herbivores like wildebeest, gazelle, zebra and hippopotamus, as well as thousands of flamingos on Lake Magadi.

* In order to reduce congestion and stress on wildlife, the Tanzanian government limits visitors to half-day visits of the crater. Depending on

what time "window" we are assigned, our excursion may take place first thing in the morning, or later in the afternoon (both of which are equally advantageous for game viewing, given the relatively mild climate at this altitude).

Overnight in the vicinity of Ngorongoro Conservation Area.

Included Meal(s): Breakfast, Lunch and Dinner

Day 8 Ngorongoro - Arusha - Depart

This morning we descend the Ngorongoro Highlands, retracing our steps back to Arusha via a lunch stop at Gibb's Farm. Founded during German colonial times and still privately owned, Gibb's Farm is now a small hotel perched on the outer slopes of the Ngorongoro Highlands, surrounded by coffee plantations with long views over lush and beautiful agricultural country.

We pass again through the town of Mto Wa Mbu ('Mosquito Creek'), famous for its lively cosmopolitan atmosphere and red bananas, which taste the same as regular bananas but their skins are a startling bright red. We continue to Arusha to connect with homeward evening flights (a +/- 5 hour journey including lunch).

LAND ONLY PASSENGERS need to take into account our morning journey when booking their flights out of Arusha (JRO). Your departure should occur no earlier than 8:00 pm.

SAFARI NJEMA!

Included Meal(s): Breakfast and Lunch
